## **Teragren announces price increases**

[Bainbridge Island, Wash.] Bamboo manufacturer Teragren today announced that prices for its flooring products will increase, on average, by approximately 8.5 percent effective October 1 or as contracts allow.

"Due to changes in the relationship of the U.S. dollar to the Chinese yuan, increasing transportation, raw material and operating costs, Teragren must raise pricing for our bamboo flooring products," said David Knight, Teragren CEO and president.
