WHAT'S NEXT

GREEN PEACE

ECO-FRIENDLY BATH PRODUCTS PROMISE TO HELP RENEW THE EARTH—AND YOUR SOUL.

YOU CAN PAMPER YOURSELF AND THE ENVIRONMENT, TOO.

All of these bath products draw on renewable resources or minimize impact on the Earth as they maximize comfort. The lineup includes all-natural fabric with low-impact dyes, a toilet that uses only as much water as needed, a sensor-driven faucet that turns off when you pull your hands away, surfaces made of recycled or sustainable materials, and light switches that can save electricity. ▶
