SOUND SOURCES

Whether you're renovating a home or constructing one from scratch, the nuts-and-bolts options for eco-friendly building materials are vast. We scoured the shelves and found the best products on the market today. —CB

TINT CANS \$37 AND UP PER GALLON

In 2005, two artists cofounded Yolo Colorhouse and started manufacturing their line of paint, which is free of volatile organic compounds, or VOCs. Today the paint is available in 60 different nature-inspired hues. We want them all.
