TimberGrass® Joins StarNet®

(Bainbridge Island, WA.) – TimberGrass Fine Bamboo Flooring & Panels, in a continuing effort to provide support to its distributors, has joined StarNet Independent Flooring Cooperative as a Preferred Vendor.

StarNet is a commercial flooring purchasing group, consisting of 89 members with a total of 144 locations throughout the United States. The StarNet membership is responsible for over \$850,000,000 in flooring and floor covering sales annually. StarNet members focus on providing a selection of high quality value added products to Architects and Designers, Medical and Healthcare facilities, Property Management Companies, and other major institutions. Other Preferred StarNet vendors include Mohawk, Mannington Commercial and Armstrong Commercial.

TimberGrass, LLC manufactures fine bamboo products that are environmentally friendly, and enjoy a prominent position in the commercial market and among the architectural and design communities. The TimberGrass product line includes site finished and prefinished strip flooring, in three, four and six foot lengths. Bamboo panels are suitable for use in furniture, cabinetry, countertops, trim, etc. Stair components and a wide range of matching flooring accessories are also available.

Beautiful, durable, and renewable bamboo has gained popularity as a quality hardwood that complies with specifications of the nation's growing number of green design professionals. TimberGrass products qualify for "Rapidly Renewing Product" status in the U.S. Green Building Council's LEED program (Leadership in Energy and Environmental Design).

TimberGrass, LLC presently services their customers through distribution centers in Seattle, WA and Cincinnati, OH.

Visit www.timbergrass.com and www.starnetflooring.com for more information.
