## Putting Together a Decorator House

HOUSE TOURS

### the no. 9 thompson cottage at the orchard hill show house

Tony Manning, the man responsible for organizing the houses for Old Westbury Gardens, rings up. He has an appliance sponsor. [Electrolux](#) has graciously agreed to donate appliances. That's great, but what to do about the rest of the kitchen, Doris Day drama and all? We find out that [American Woodmark](#) will donate cabinets from their Shenandoah collection, a line of semi-custom cabinets sold at Lowe's. They'll also install the cabinets, but they won't provide the counter tops. We'll end up using eco-friendly [Teragren](#), a bamboo butcher block. Here's the "before" shot of the kitchen.
