Kitchen: get a layered look

Inspiration: The crisp clean design of this blue and white kitchen is layered with pops of energetic color. The red drum pendant from [Croft & Little](#) illuminates the bamboo island top from [Teragren](#). Glass-front cabinets provide a showcase for a collection of colorful pottery.

Steal this idea: The bamboo-topped table on casters tucks under the island and can roll away for use throughout the house or outside. Mixing up the chair styles adds casual appeal.
