### Teragren Raising Bamboo Prices

Bainbridge Island, WA, Sept. 11, 2008 –  
Bamboo specialist Teragren said it is raising  
prices for its flooring products by  
approximately 8.5 percent effective Oct. 1.

“Due to changes in the relationship of the U.S.  
dollar to the Chinese yuan, increasing  
transportation, raw material and operating  
costs, Teragren must raise pricing for our  
bamboo flooring products,” said Teragren CEO  
and President David Knight.

Teragren was founded in 1994 and the increase is only the second in the company’s  
history and the first for its Synergy Strand Bamboo Flooring product lines.
