Teragren Parquet Butcher Block

A butcher block surface made of renewable bamboo is a more eco-friendly option than many countertop choices available.

Manufacturer: [Teragren](#)

Made with end grain and arranged in a parquet pattern, Teragren's bamboo butcher block outfits kitchen counters, tabletops or islands. The butcher block is formaldehyde-free and food safe for the kitchen. Available in natural and caramelized colors, the butcher blocks come in a variety of standard and custom sizes.
